

FOR IMMEDIATE RELEASE: Senior Staff Announcement

Health Record Services Adds Radiology Executive to Expand Coding Services

Pilato Brings Radiology Expertise to Growing Company

Baltimore, Maryland, July 6th, 2007 —Health Records Services (HRS) proudly announces the addition of Jeff Pilato, MHA, RTR, CBCS, to the company’s senior management team. As Director of Corporate Compliance and Coding for HRS, Pilato brings over 14 years of clinical, operational and consulting experience with a specific focus in radiology and diagnostic medical imaging.

“The addition of Jeff to our management team will support our growth into healthcare’s ancillary service areas, particularly radiology,” states Wendy Coplan, RHIA, President, HRS. Formerly a Regional Manager with HP3’s audit division, Pilato worked as a coding and billing auditor specializing in radiology, interventional radiology, cardiology, and chargemaster auditing and held various positions as a radiologic technologist for major medical centers.

“HRS is a focused company with several advantages to both health information management (HIM) and radiology organizations,” mentions Pilato. Specifically Pilato chose HRS because of their reputation for excellent customer service, company flexibility and a focus on specialized coding services. The company will be announcing their expansion into radiology coding at next week’s American Healthcare Radiology Administrator’s (AHRA) Annual Meeting and Exposition in Orlando, Florida, Booth #613 where Pilato will be in attendance.

About HRS

Health Record Services has been providing expert coding services to the healthcare industry since 1979. The company provides exemplary coding service and coding audits for all facility types. For more information about the company, visit their website at: www.healthrecordservices.com.
